

2012 Pagosa Paw Freight Class Information

For the Pagosa Paw the Freight class will be a 3 mile course.

The freight will be 2.5 gallon jugs of water which weigh 20 pounds each. There will be a maximum of 15 jugs for a total of 300 lbs available for each team to pick up. There will be 5 locations along the course approximately 1/2 mile apart to pick up jugs. Each location will have 3 jugs per team.

The driver can pick up 0 to 3 jugs from each of the five locations. You must be able to step away from your team. Lifting assistance will be available.

Results will be based upon combination of weight carried and time to course completion.
